Rilke is one of the leading poets of European Modernism, and one of the great twentieth-century lyric poets in German. From *The Book of Hours* in 1905 to the *Sonnets of Orpheus* written in 1922, he constantly probed the relationship between his art and the world around him, moving from the neo-romantic and the mystic towards the precise craft of expressing the everyday in poetry. This new edition--the only bilingual edition to include such a broad range of poems--fully reflects Rilke's poetic development. It contains the full text of the *Duino Elegies* and the *Sonnets to Orpheus*, and selected poems from *The Book of Images*, *New Poems*, and earlier volumes, and from the uncollected poetry 1906-26. The translations are accurate, sensitive, and nuanced, and are accompanied by an introduction and notes that chart the development of Rilke's poetic practice and his central role in modern poetry. The book also includes a chronology, select bibliography, and explanatory notes that identify people and places, and include key commentary by Rilke from letters or notes.

What a poem! Give me a reason to learn German, the word with the musci tempo into the deepest of my heart directly.

不算是好的译本。跟一些互联网上的译作相比有一些不足。个人不是很喜欢。看在里尔克的面子上给4分。
