In this market, college students need an edge to get the full time job, co-op or summer internship they want. Who better to teach them than a current Lead Professional Recruiter, with over 15 years experience recruiting for small, medium, and large companies, who works for a Fortune 50 Company? Learn all the best secrets, tips, techniques, and tricks that have been PROVEN TO WORK for students just like you. This is not just the same information you will find in other sources, presented in a different way. Learn the best way to approach every major area of your job search including Interviewing, Resumes, Career Fair, Negotiating Salary, Applying Online, your Career Center and more. This is the inside story. This is the information you would get if you

could hire an experienced college recruiter as your own personal job search consultant. You don't want all the information out there, just the information that works the best, and you want it in ONE source. Here it is!
