Chicago is famous for its role in fostering modern architecture. Now Jeanne Gang, founder of Studio Gang Architects, is giving the epithet "Chicago School" a new meaning. Her recently completed 82-story Aqua residential tower is already an icon of the Chicago skyline and has been universally hailed as a masterwork for the young firm. Reveal presents an in-depth look at the firm's unique work and working process

through drawings, diagrams, sketches, and photographs that illuminate the evolution of each of the book's eight featured projects, both public and private, and ranging in size from exhibition to high-rise.
