This book provides insights into the innovative work of the School of Product Design at the Dusseldorf University of Applied Arts under the direction of Elisabeth Holder and Herman Hermsen. This highlights many facets of jewellery and product design and the resulting tensions between art and design, ornament and commodity, unique specimen and serial production. The most recent creations by staff, students and graduates afford a comprehensive survey of the varied work inspired by this course. A textual kaleidoscope - taken from a round of talks between graduates and students - which reflects the different facets of college and professional life, rounds off the reflections on jewellery and product design at the Technical College Dusseldorf.

这本书真是太有趣了，且不说里面的首饰和产品多有趣，更吸引人的是，为了突出图册，它把所有的文字介绍都印在了两张连着的图背后，也就是说要看到文字，要把书一页页地撕开，最后书的侧面就都是毛毛的边边，实在是太可爱了
