The contribution of the Ancient Greeks to modern western culture is incalculable. In the worlds of art, architecture, myth, literature, and philosophy, the world we live in would be unrecognizably different without the formative influence of Ancient Greek models. Ancient Greek civilization was defined by the city - in Greek, the polis, from which we derive 'politics'. It is above all this feature of Greek civilization that has formed its most enduring legacy, spawning such key terms as aristocracy, oligarchy, tyranny and - last but by no means least - democracy. This stimulating Very Short Introduction to Ancient Greece takes the polis as its starting point. Paul Cartledge uses the history of eleven major Greek cities to illuminate the most important and informative themes in Ancient Greek history, from the first documented use of the Greek language around 1400 BCE, through the glories of the Classical and Hellenistic periods, to the foundation of the Byzantine empire in around CE 330. Covering everything from politics, trade, and travel to slavery, gender, religion, and philosophy, it provides the ideal concise introduction to the history and culture of this remarkable civilization that helped give birth to the world as we know it.

# 评论

作为只有百余页的简明希腊史能有这样大的广度是值得称赞的，按照传统的希腊史叙事12个城邦恐怕就只剩下一半了吧（克诺索斯、迈锡尼、斯巴达、雅典、忒拜和叙拉古，亚历山大里亚？不存在的）。当然由于篇幅限制各个城邦都只能点到为止，基本的史实框架似乎也有一点不太清楚，在VSI系列中不算特别优秀的著作但也不必强求。
