The first ever collection of Iain Banks's short fiction, this volume includes the acclaimed novella, *The State of the Art*. This is a striking addition to the growing body of *Culture* lore, and adds definition and scale to the previous works by using the Earth of 1977 as contrast. The other stories in the collection range from science fiction to horror, dark-coated fantasy to morality tale. All bear the indefinable stamp of Iain Banks's staggering talent.
