John Locke's political theory has been the subject of many detailed treatments by philosophers and political scientists. But "The Lockean Theory of Rights" is the first systematic, full-length study of Locke's theory of rights and of its potential for making genuine contributions to contemporary debates about rights and their place in political philosophy. Given that the rights of persons are the central moral concept at work in Locke's and Lockean political philosophy, such a study is long overdue.

怎么说呢，它和Simmons的另一本书（On the Edge of Anarchy）刷新了我对政治思想史研究的理解与期待。理解洛克政治哲学（特别是它在当代之相关性）的必读经典！
