## Product Description

When his first album was released in 1967, Leonard Cohen was already well known in his native Canada as a poet and novelist, and in the United States as the writer behind Judy Collins' hugely popular recording of 'Suzanne.' With the success of the first and through the release of ten more albums, Cohen gained a reputation as a dazzlingly literate and consistently daring songwriter. Over the years his status as a cult artist has grown, and in 1988 the release of his album 'I'm Your Man' put Cohen back into the mainstream spotlight. His latest recording, 'The Future' has brought him renewed, widespread acclaim and this collection will include lyrics from that album, together with many of his famous classics, such as Suzanne, Joan of Arc and The Chelsea Hotel. STRANGER MUSIC brings together Cohen's song lyrics and a generous selection of his poetry (originally published between 1956-1992). It is a long overdue celebration of Leonard Cohen's extraordinary gift for language that speaks with rare clarity, passion and timelessness. (19930524)
