著者:Mabey, Richard

出版者:

出版时间:2009-5

装帧:

isbn:9780099531821

This remarkable book is an account of a year of new life for the author, following a severe bout of depression. Mabey, author of the groundbreaking bestseller, Flora Britannica, finds his niche not in passive submission to nature, but in an active, sensual re-engagement.

This is seven books in one. Madly blends theories and ideologies with personal experience and life. Rather than walking into the nature seeking for cure, the Richard let’ s nature in and heal. Subject and object, wildness and wilderness. Interesting thought poorly presented.
