Control was the word Dr Toby Harper lived by. She strove to keep her life in order, her ER in order. But no one could have been prepared for the man she admits one quiet night to the Springer Hospital. Delirious and in critical condition, he barely responds to treatment. And then he disappears without trace. The subsequent search leads Toby to a second patient with the same infection. And it reveals an unsettling twist - the infection can only be spread through direct tissue exchange. Soon Toby's on a trail that winds from a pregnant sixteen-year-old prostitute to an unexpected tragedy in her own home. Only then does she discover the unthinkable: a terrifying and deadly epidemic is about to be unleashed.

评论

并不是这本写得有多不好，主要是看了4-5本她的书以后对她的套路比较熟悉了，而且相对于前面看的几本来说，这本相对比较水一点儿，虽然后面接近高潮部分的叙事还是让人有身临其境的紧张感，但是还是觉得正本书精彩不足。医学术语太多，到后来实在懒得一个一个查了，其实本来也不需要，并不影响。
