

The Syntactic Phenomena of English

[The Syntactic Phenomena of English 下载链接1](#)

著者:James D. McCawley

出版者:University of Chicago Press

出版时间:1998-4-11

装帧:Paperback

isbn:9780226556291

This second edition of James D. McCawley's classic textbook offers in one volume a complete course in the syntactic structure of English. New to this edition are sections on appositive constructions, parasitic gaps, contrastive negation, and comparative conditional sentences, as well as expanded coverage of cleft sentences and free relatives. The presentation is coherent, comprehensive, and systematically organized, beginning with an overview of McCawley's approach to syntactic analysis and progressing through the major constructions and processes of English grammar. No prior special knowledge of syntax is presupposed, and the number and variety of exercises after each chapter have been increased.
