Aspirational business book based on interviews with over 75 leading American CEOs. What does it take to succeed in business and to inspire others? Adam Bryant of The New York Times sat down with more than seventy-five CEOs and asked them how they do their jobs and the most important lessons they learned as they rose through the ranks. The Corner Office draws together lessons, memorable stories, and eye-opening insights from chief executives like Steven Ballmer (Microsoft), Carol Bartz (Yahoo), Jeffrey Katzenberg (DreamWorks), and Alan Mulally (Ford), as Bryant reveals the keys to success in the business world, including the five qualities CEOs value most in their employees, and shows how executives at the top of their game get the most out of others. For aspiring executives, of any age, The Corner Office offers perspectives that will help anyone who seeks to be a more effective leader and employee, and a path to future success.
