A collection of ninety pieces of poetry by Shawna Howson, *Insomniatic Dreams* is the first anthology by this talented author. Geekgirlonthestreet.com writes, "If Edgar Allen Poe and William Shakespeare had a baby and asked Tim Burton to be the godfather, the result would be Shawna Howson." It's hard to ignore Shawna's fantastical, passion infused poetry. It's said to be rippling with such keen imagination and feeling that one

has to take a few breaths after each piece. Insomniatic Dreams is sure to be a favourite of poetry enthusiasts and Lewnatics alike!
