Dr. Seuss's well-known and well-loved *The Lorax* is as timely now as it was when it was first published in 1971—perhaps even more so. This bestselling ecological warning is now available in an elaborate pop-up book, published in conjunction with the release of *The Lorax* feature film on March 2, 2012—Ted Geisel's birthday.

David Carter has transformed Seuss's powerful message and has brought to life the Lorax, the Bar-ba-loots, the Truffula Tree Tufts—and more—in eight dynamic pop-up spreads.
