Now updated with a new introduction and bibliography Ian Kershaw's classic study of popular responses to Nazi policy and ideology explores the political mentality of 'ordinary Germans' in one part of Hitler's Reich. Basing his account on many unpublished sources, the author analyses socio-economic discontent and the popular reaction to the anti-Church and anti-Jewish policies of the Nazis, and reveals the bitter divisions and dissent of everyday reality in the Third Reich, in stark contrast to the propaganda image of a 'National Community' united behind its leaders. The focus on one particular region makes possible a depth of analysis that takes full account of local and social variations, and avoids easy generalization; but the findings of this study of ordinary behaviour in a police state have implications extending far beyond the confines of Bavaria or indeed Germany in this period.
