isbn:9780863158261

Unspun sheep's wool, also known as magic wool, is a warm vibrant material, perfect for making these beautiful soft figures. Christine Schafer includes detailed instructions on making fairies and angels for every occasion: flower fairies for a seasonal nature table, fairies for birthday celebrations, guardian angels to watch over a crib and, of course, a range of Christmas angels. This book includes step-by-step instructions, colour photographs and diagrams which clearly show the reader the basics for making simple figures, progressing to detailed instructions for making more elaborate

versions.
