Architects on their favorite subject

If you've ever wondered what goes through architects' minds when they design buildings, you'll be happy to know that there's no shortage of brilliant reading material to satisfy your curiosity. Wading through the archives at your local library may prove fruitful to your endeavor, but it won't give you the instant gratification that *Architecture Theory* will.

This book brings together all of the most important and influential essays about architecture written since the Renaissance, copiously illustrated and neatly organized chronologically by country. From Alberti and Palladio to Le Corbusier and Koolhaas, the best treatises by architecture's greatest masters are gathered here, each

accompanied by an essay discussing its historical context and significance. This is the all-in-one, must-have book for anyone interested in what architects have to say about their craft.

作者介绍:

[德]伯恩德·艾弗森 (Bernd Evers)

艺术史博士。自1985年以来，一直担任柏林艺术博物馆的主任。他著有很多有关建筑的书籍和论文，其研究的中心议题是17至19世纪的建筑史。
