著者:F. W. Maitland

出版者:Cambridge University Press

出版时间:2003-11-13

装帧:Hardcover

isbn:9780521820103

The essays collected in *State, Trust and Corporation* contain the reflections of England's greatest legal historian on the legal, historical and philosophical origins of the idea of the state. All written in the first years of the twentieth century, Maitland's essays are classics both of historical writing and of political theory. They contain a series of profound insights into the way the character of the state has been shaped by the non-political associations that exist alongside it, and their themes are of continuing relevance today. This is the first new edition of these essays for sixty years, and the first of any kind to contain full translations, glossary and expository introduction. It has been designed to make Maitland's writings fully accessible to the non-specialist, and to make available to anyone interested in the idea of the state some of the most important modern writings in English on that subject.

终于明白何师当年在多大为何让我选Trust了，这实是了解英国普通法与大陆法区别的关键所在。多少龌龊与多少美好，都通过这一制度达成。
