One of the preeminent chroniclers of the American West, over the past decade Robert Adams has turned his attention to the woods and shores near his home on the Oregon coast. "Sea Stories" is a sequence of three narratives that follow Adams and his wife, Kerstin, as they walk among alder and maple trees, along the beach to observe the annual migration of shorebirds, and back eastward through meadows and what remains of the inland forest. Featuring many previously unpublished photographs, this book describes the cycles of nature with a new naturalism.

## 评论

印刷很一般，不是他的书该有的水准

R·Adams的书做的都漂亮，这本也不例外。本书分三个章节：1、树之旅；2、春光；3、归途。照片内容包含树木、海滩、候鸟等元素，被称为新自然主义摄影。清淡、随意却隽永。耶鲁大学出版社出版。美国印刷。

看到海鸟那几张慢慢地变，就好戳中。。。

还是不知道新地形学到底是什么鬼啊

被摄主体简单到无法感受变化，在其上，摄影师呈现了宁静致远欲辨忘言的干净。

Robert

Adams照片中的这一股魔力，第一秒感觉到的是镜头下的荒芜，随即而来的一丝丝的暖流回荡于心里。
