A unique partnership with Discovery Education brings you an exciting new reference series for young readers

Sixty-four titles cover four popular subject areas – social science, science, natural history and history. There are four reading stages and 16 titles in each reading stage. The topics have been carefully selected to interest and engage young readers, and to stimulate critical thinking.

Explore the world, its history, peoples, animals and technologies

Learn about recent advances in scientific discovery

Find out about events in history and their impact on our world
