These inviting tales provide simple, yet profound advice to young children. Bawa Muhaiyaddeen speaks of the generosity of nature, of the tree that gives its fruit selflessly without expecting anything in return, and the forest life that lives in unity. He also warns about tiny red ants that can cause so much damage even though they are small, and reminds us to guard ourselves against any negative qualities, no matter how minor.

The stories also tell children about their true nature one of purity and resplendent light that comes from God.

Perfect for bedtime stories, these selections are gems of wisdom that young children can take in, ponder, and draw from in their lives.

作者介绍:

Muhammad Raheem Bawa Muhiyaddeen, a Sufi mystic, can best be remembered for his efforts to bring unity through understanding to the faithful of all religions.

Little is known of his early personal history. Records of his life began in the early 1900's when religious pilgrims traveling through the jungles of Sri Lanka first caught glimpse of a holy man. They were overwhelmed by the depth of divine knowledge that he imparted.

Sometime later a pilgrim invited him to a nearby village, and with that began his public life as a teacher of wisdom.

Throughout Sri Lanka, people from all religious and ethnic traditions would listen to his public discourses. Many consulted him on how to conduct life's affairs, including public figures, politicians, the poor, and the learned.
