Salads for first course, main courses and accompaniments. Salads made from fish, shellfish, game, meat, vegetables, eggs, warm salads, fruit salads and green salads.

There is also information on how to make dressings and herb vinegars, how best to store lettuce and which oils to use.

In good condition, although the top and the bottom edges are a bit grubby from years of standing on a shelf and there are a few marks on the dust cover, but these would probably wipe off.
