This guide to what motivates feline behavior answers such questions as "Why does my cat eat the plants?" and "Why does my cat walk on the paper I am reading?" Offering a wealth of practical advice on ways of dealing with unacceptable behavior, this book explains instincts that may be accountable for erratic and troublesome behavior. Informative and full of insights into the minds of cats, these solutions provide ways to create a healthy and loving relationship between cats and the humans who share their homes with them.
