"How to Write Anything" supports students wherever they are in their writing process. Designed to be clear and simple, the Guide lays out focused advice for writing common academic and real-world genres, while the Reference covers the range of

writing skills that students needs as they work across genres and disciplines. Genre-based readings -- including narratives, reports, arguments, evaluations, proposals and rhetorical, causal, and literary analyses -- are sure to engage students and inspire ideas. The result is everything you need to teach composition in a flexible, highly visual guide, reference and reader. This new edition gives students more support for academic writing, more help choosing and working with genres, and more emphasis on multimodal composing.
