Tech-savvy and student-friendly, "The Bedford Researcher" addresses the kinds of

writing students actually do and the kinds of sources they actually use, from multimodal projects and oral presentations to Web sites and digital databases. "The Bedford Researcher" strips away the complexities of research writing and offers the practical help students need to write with confidence while integrating electronic sources and tools into each stage of the process. The new fourth edition strengthens students' grasp of the arguments at the core of their sources, helping them navigate the world of academic research writing.
