Universally regarded as the greatest French political theorist and philosopher of education of the Enlightenment, and probably the greatest French social theorist tout court, Rousseau was an important forerunner of the French Revolution, though his thought was too nuanced and subtle ever to serve as mere ideology. This 2001 volume systematically surveys the full range of Rousseau's activities in politics and education, psychology, anthropology, religion, music and theater.

Emile 兩篇。讀過原著之後看，頓時世界清晰了。這應該是經典研讀的次序。
